G C G
Ye come here gather 'round the stage

The time has come for us to voice our rage

Against the ones who trapped us in a cage
D C Em
To steal from us the value of our wage

G C G
From underneath the vestiture of law
D C Em
The lobbyists of Washington do gnaw
G C G
At liberty, the bureaucrats guffaw
D C Em
And until they are purged we won't withdraw

Chorus

C
We'll occupy the streets
D
We'll occupy the courts
G C
We'll occupy the offices of you
G
'Til you do
C D G
The bidding of the many, not the few

Repeat intro

G C G
Our nation was built upon the right
D C Em
Of every person to improve their plight
G C G
But laws of this republic they rewrite
D C Em
And now a few own everything in sight

G C G
They own it free of liability
D C Em
They own, but they are not like you and me
G C G
Their influence dictates legality
D C Em
And until they are stopped we are not free

G C G
You enforce your monopolies with guns
D C Em
While sacrificing our daughters and sons
G C G
But certain things belong to everyone
D C Em
Your thievery has left the people none

G C G
So take heed of our notice to redress
D C Em
We have little to lose we must confess
G C G
Your empty words do leave us unimpressed
D C Em
A growing number join us in protest

You can't divide us into sides

Denial serves to amplify
D C Em
And our allegiance you can't buy

Our government is not for sale

The banks do not deserve a bail

We will not reward those who fail
